

Why get an

architect

**involved in your building
or preservation project?**

Brendan Brown, AIA

Kovert Hawkins Architects

New Albany Historic Preservation Commission - Chair

An architect
(or design professional)
may be required.

An architect
(or design professional)
may not be required, but
could still assist your project.

An architect

can provide the following services:

- Site Analysis
- Programming
- Design
- Code Review, ComCheck
- Life Safety
- 3D Modeling / Renderings
- Building Plans, Elevations, Sections, Details
- Cost Opinions
- Construction Documents
- Agency Submittals
- Bidding
- Construction Administration
