

Historic Preservation Ordinance for the City of New Albany, Indiana

§151.01 Purpose and Definitions

(A) Purpose of Historic Preservation and Protection:

In order to promote the educational, cultural and general welfare of the citizens of New Albany and to ensure the harmonious and orderly growth and development of the municipality; to maintain established residential neighborhoods in danger of having their distinctiveness destroyed; to enhance property values and attract new residents and businesses; to ensure the viability of the Downtown and other historic commercial districts and to enhance tourism within the City of New Albany; it is deemed essential by the City of New Albany that qualities relating to its history and outward appearance of its structures be preserved. This purpose is advanced through the restoration and preservation of historic areas and buildings, the construction of compatible new buildings where appropriate, and the maintenance and insurance of compatibility in regards to style, form, proportion, texture, and material between historic buildings and those of contemporary design. It is the intention of the City of New Albany, through this ordinance, to preserve and protect historic and architecturally-worthy buildings, structures, sites, monuments, streetscapes, and neighborhoods, which impart a distinct aesthetic quality to the city and serve as visible reminders of New Albany's historic heritage and building traditions.

- (1) Based on its survey, the Historic Preservation Commission may draw and submit maps for City Council approval.
 - (2) Owners of property in fee simple wishing to establish a historic district that includes their property may petition the Historic Preservation Commission to consider drawing or submitting a map or maps of said property to the City Council for its approval. The Historic Preservation Commission may establish in its rules criteria to be met before it considers a petition.
- (B) Conservation Districts:
The Historic Preservation Commission may recommend, and the city Council may provide, that the establishment of a historic district may occur in two (2) phases. - (1) At the expiration of the initial three (3) year period, the first phase of a conservation district continues and the second phase becomes effective unless a majority of the property owners in the district object to the Historic Preservation Commission, in writing, to the requirement of a Certificate of Appropriateness for the following activities:

The Historic Preservation Commission shall prescribe the method of conducting and/or receiving the objections of the majority of owners in the Commission's Rules.
- (C) Historic Preservation Commission preparation of historic district maps: in order to establish a historic district, the Historic Preservation Commission shall first prepare a map describing the district in accordance with the following:
- (1) The map shall be based on a survey conducted by the Historic Preservation Commission that identifies historic buildings, structures, and sites located within the City.
 - (2) A district may be limited to the boundaries of a property containing a single building, structure, or site.

- (D) The Historic Preservation Commission shall classify and designate on the map all buildings, structures, and sites within each historic district described on the map. Buildings, structures, and sites shall be classified as historic or non-historic. Historic buildings, structures, and sites must possess identified historic or architectural merit of
